

Where Experience Meets Innovation

Trust – Innovation – Excellence - Loyalty

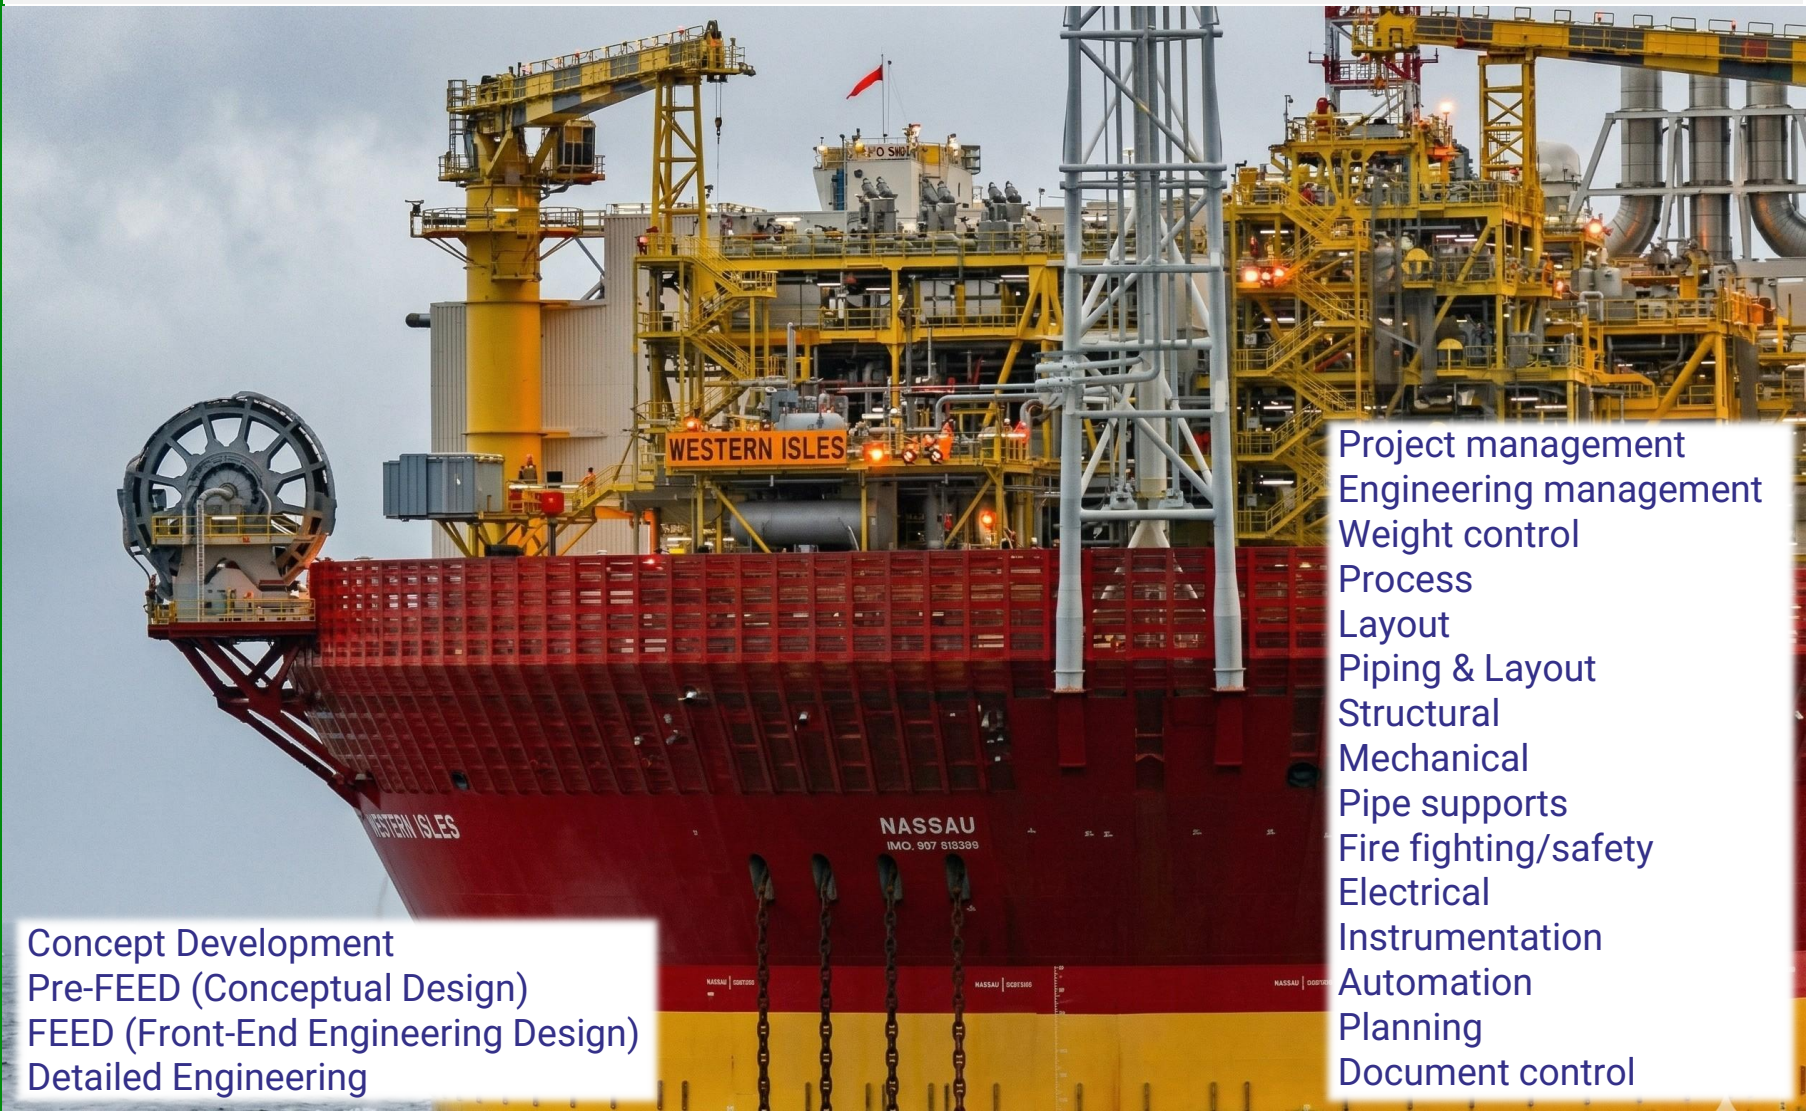

OUR VISION	OUR MISSION	OUR CORE VALUES
High Quality Engineering and Fabrication	Driving innovation through the integration of Norwegian precision engineering with optimized, cost-efficient production capabilities.	Trust Innovation Excellence Loyalty

Mitigate Risks – Weight Control – Optimize Costs - Innovation

Document control

Oil & Gas

- Fabrication Management
- E-Houses
- Process Skids
- Equipment Skids
- Piping/Pipe Spools
- Steel Structures
- Pressure Vessels
- Tanks
- Outfitting Structures
- Client-requested items

Aquaculture Equipment

- Design & Engineering
- Water Filtration
- Tanks
- Trays & Chutes
- Piping/Pipe Spools
- Equipment Skids
- Client-requested items

High Precision Machining

- CNC Manufacturing
- Aquaculture
- Oil & Gas
- Industrial
- Marine
- Machinery
- All kinds of materials
- Client-requested items

Norwegian quality
Cost-effective fabrication in SEA
Tailored solutions for every client

Quality Assurance

Techvalue Norway and our subsidiary company Techvalue (Vietnam) has a complete **QA System** according to **ISO 9001:2015**

A complete set of Check Lists within all engineering disciplines has been established

Quality Control

Techvalue Norway has own developed systems for following up fabrication in addition to the fabricators own Quality Control Systems

Techvalue Norway establish **clear procedures and Check Lists** whenever required in order to close all gaps of the Quality Control

Engineering	Fabrication (Vietnam)	Quality Management	Procurement & Logistics	Project Consultancy
All relevant disciplines covered	Delivering wide range of fabrication from machined products to Oil & Gas Modules.	Quality Audits Quality Inspections & Fabrication Follow Up.	International & domestic Procurement. (Material, equipment)	Comprehensive Technical Service – representing foreign companies in SEA.
Wide experience from land based and oil & gas industry.	Own developed systems for following up all fabrication.	Quality Documentation	Import and Export Services	Sales & Marketing – expand your business in Vietnam
			<p>Value added services for clients who need operational solutions in Vietnam without own local representative.</p>	
Norwegian and Vietnamese senior engineers and engineers	Trusted partner network with highly competent fabricators.	Wide experience from engineering and fabrication in Asia	Close gaps within language, cultural, commercial and technical aspects between Vietnam and overseas
